

FALL COMMENCEMENT

SATURDAY, DECEMBER 16, 2023
CHARLES AND RUTH CLEMENTE CENTER
FOR SPORTS AND RECREATION
MELBOURNE, FLORIDA

PROGRAM

Processional

9:30 a.m.

Ceremony for Graduate Students

Grand Marshal Muzaffar Shaikh, Ph.D.

Candidates for the Doctoral Degree

Candidates for the Master's Degree

2:00 p.m.

Ceremony for Undergraduate Students

Grand Marshal Frank Webbe, Ph.D.

Candidates for the Bachelor's Degree

Candidates for the Associate Degree

Faculty

Commencement Officials and Distinguished Guests

(Audience will please stand and remain standing for the invocation.)

National Anthem

Led by College Players/Players in Harmony

Invocation

Chaplain Pamela Tooley

President's Address

John Nicklow, Ph.D.

Commencement Speaker

Michelle Miller

Presentation of the Faculty Honors Award

Alan Brown, Ph.D., President of the Faculty Senate

Conferring of Degrees

John Nicklow, Ph.D.

Alma Mater

Recessional

Grand Marshal

*(Members of the audience are requested to remain standing until the academic procession has left the auditorium.)
A professional photographer will take photos of each graduate. It is not necessary to leave your seat to take photographs.*

OFFICE OF THE PRESIDENT

To our graduates and newest alumni:

Congratulations from your Florida Tech family! We are immensely proud of your accomplishments. Today is a milestone moment, something to enjoy and to celebrate. You have worked hard and succeeded in this major step forward in your life.

I hope you feel grateful and proud of what you have just accomplished. Look back over your time at Florida Tech and savor those memories. A walk through the botanical garden. A good grade in that notoriously difficult class. An amazing international meal at PDH. Those are key parts of your time here, and Florida Tech is proud to do them better than most, as *The Wall Street Journal* noted when it ranked us 6th in the nation earlier this year for our student experience.

So these memories and experiences are part of who you are now, but they are not ALL that you are. There is so much more to come.

It is now time to face your next challenge, with all that entails. Excitement, anticipation, maybe a little anxiety. But it's worth it! Remember, you don't have to be great to start, the motivational speaker Zig Ziglar reminded us, but you have to start to be great.

And thankfully, that Florida Tech diploma you have earned brings with it benefits beyond the skills you acquired and lessons you learned while in class. It brings recognition that a Florida Tech graduate is truly special. That's not an opinion: the influential Global Employability University Ranking and Survey, filled out by thousands of top international employers, ranked Florida Tech 17th among U.S. schools on the strength of our graduates.

This ranking found that Panthers excel in key employability drivers like academic excellence, graduate skills, hands-on experiences and comfort in international environments.

So as you enter the workforce or military or consider additional degrees, remember: You got this. And know that your relationship with the university does not end today. Panthers support one another, in any way possible, and I hope that you will continue to engage with your alma mater.

You already made one key decision in opting to come to Florida Tech. Now take us with you, in your heart and in your head, as you move forward, embracing your time, living your opportunities. We are all so proud of you.

#Panther4Life!

Sincerely,
John Nicklow, Ph.D.
President

BOARD OF TRUSTEES

Joseph Caruso '73

President and Chief Executive Officer, OmniFirst Capital

Brian Crane '91

Secretary, Florida Institute of Technology Board of Trustees
Private Wealth Advisor, Crane Private Wealth Group of
Raymond James

Dale A. Dettmer '71, J.D.

Attorney at Law, Whitebird Law

Kirsten L. Dreggors

Vice Chairman, Florida Institute of Technology Board of
Trustees, Vice President of Engineering, Aeronautics Systems,
Northrop Grumman

Bobbie Dyer

Division President, Dyer Mortgage Group

Doug Flutie

Sports Analyst, Former National Football League Player

Tom J. Folliard '89

Chairman, CarMax

Steven Freeman '90, '92

Managing Director–Market Executive for Central North Florida
and Complex Manager, Morgan Stanley Wealth Management

Dana Kilborne

President and Chief Executive Officer, Cypress Trust Company

Richard P. McNeight

Senior Vice President Strategy, Health First Inc.

Kendall T. Moore, Esq.

Attorney at Law, The Moore Law Group PLLC

William Muns '78, '80

Executive Director, MDCC Holdings

John W. Nicklow

President, Florida Institute of Technology

Robert L. Phebus Jr. '74

Chief Financial Officer (Ret.), Ford Motor Company of
Southern Africa

Richard R. Porter

Partner (Ret.), Deloitte

Alan L. Prestwood '73, '80

Senior Vice President of Investments (Ret.), Wells
Fargo Advisors

Travis Proctor '98

Chairman, Florida Institute of Technology Board of Trustees
Chief Executive Officer, Artemis IT

Michael Scafati

Managing Director (Ret.), Wells Fargo Advisors

Scott J. Seymour

President and Chief Executive Officer (Ret.), Aerojet
Rocketdyne

Elizabeth J. Swann

Owner, Dunn Huntin Grove

Vikram Verma '87

Advisor, Former Chief Executive Officer, 8x8 Inc.

Dave Weldon, M.D.

Board Certified Internist, Health First Medical Group

TRUSTEES EMERITI

Raymond A. Armstrong, M.D.

Physician (Ret.)

Richard N. Baney, M.D.

President (Ret.), Health First Physicians Inc.

Joseph M. Flammio

Vice President (Ret.), Wells Fargo Advisors

William C. Potter, J.D.

Partner (Ret.), Holland and Knight - Potter, McClelland, Marks
and Healy P.A.

James E. Pruitt '72

President (Ret.), Pruitt McCaslin Inc.

COMMENCEMENT SPEAKER

Michelle Miller is a co-host of “CBS Saturday Morning.” Her work regularly appears on “CBS Mornings,” “CBS Sunday Morning” and the “CBS Evening News.” She also files reports for “48 Hours” and anchors CBS NEWS STREAMING’s “EYE ON AMERICA.”

Since joining CBS News in 2004, Miller has reported on stories of national and international importance. From presidential elections to the climate crisis, her area of coverage is wide-ranging, but her reporting around social justice has been particularly groundbreaking. From her coverage of the killings of George Floyd, Trayvon Martin and Michael Brown, to the nationwide outrage of the Emanuel 9 Massacre in Charleston, to sexual assault allegations against prominent celebrities, Miller has been at the forefront of CBS News’ coverage of the protest movement involving these issues.

She was the first CBS News correspondent on the ground at the Sandy Hook Elementary School shooting and followed the movement to change the nation’s gun laws, including the March for Our Lives protests. Her coverage has also extended overseas to the refugee crisis in the Middle East, the celebration and life of Nelson Mandela, the Coronation of Charles III and Camilla and Super Bowl 50.

Miller’s reporting has earned her several prestigious journalism awards including an Emmy for her series of reports on the National Guard’s Youth Challenge Academy, an Edward R Murrow for her coverage of a day care center stand-off in New Orleans, and she was part of the Alfred I. duPont – Columbia Award winning team for coverage the Newtown, Connecticut, school shooting. She won a Gracie Award for her 2019 report on the hidden world of sex trafficking in “48 Hours: Live to Tell: Trafficked” and again for her 2023 report on an NYPD detective who triumphed over domestic abuse and survived being shot 10 times in “48 Hours: Katrina Brownlee: The Good Cop.”

She also earned a Salute to Excellence Award from NABJ and was voted Woman of the Year by the National Sports Foundation. In 2014, TV Week named Miller as one of the “12 to watch in TV news.”

Miller has interviewed global leaders, politicians, artists and celebrities, including President Bill Clinton, Oprah Winfrey, former Soviet Premier Mikhail Gorbachev, Beyoncé, Tiffany Haddish, Angela Bassett, John Goodman, Tony Bennett, James Earl Jones, Lenny Kravitz, LL COOL J, Carlos Santana, Denzel Washington and cellist Yo-Yo Ma.

Her career in broadcast and print journalism includes work at the Los Angeles Times; the Star Tribune in Minneapolis; CBS affiliate WWL-TV in New Orleans; WIS-TV in Columbia, South Carolina; the Orange County News channel; and ABC News “Nightline” in Washington, D.C. Miller also taught journalism and mass communication at Dillard University in New Orleans.

In addition to her co-hosting and reporting duties, Miller is a board member for the School of American Ballet and Education Africa and has served on the March of Dimes National Communications Advisory Council. She is a member of the Greater New York Chapter of the Links, Inc., Jack & Jill of America

and is a founding member of the Women’s Leadership Initiative for the United Way of New Orleans. Previously, Miller served as vice president of the YWCA of Greater New Orleans and president of both the Black Journalists Association of Southern California and the New Orleans Association of Black Journalists. She is also a former member of the Board of Advisors at Hampton University’s Scripps Howard School of Journalism.

Miller has participated in the Poynter Institute, was a Hitesman Lecturer at Louisiana State University’s Manship School of Mass Communication, the Annual H. Naylor Fitzhugh Conference at the Harvard Business School, and a guest speaker for the National Model UN Program. She holds Honorary Degrees from St. Francis University and St. Peter’s University and was the commencement speaker at Tennessee State University and was awarded Distinguished Alum from both of her alma maters, Howard University and the University of New Orleans.

Miller is also the author of the *New York Times* bestseller *Belonging: A Daughter’s Search for Identity Through Loss and Love*, a memoir which details Miller’s deeply personal journey of confronting her past and finding her voice.

Miller earned a bachelor’s degree in journalism from Howard University and studied abroad in Kenya and Tanzania. Miller also holds a master’s degree in urban studies from the University of New Orleans.

Miller is married with three children.

HISTORY

Founded in 1958 as Brevard Engineering College by Dr. Jerome P. Keuper, Florida Tech initially offered continuing education opportunities to scientists, engineers and technicians working at what is now NASA's John F. Kennedy Space Center. The new college grew quickly, paralleling the rapid development of America's space program. The college, dubbed by the media as the "night school for missilemen," gained international attention, including a visit from legendary rocket scientist Wernher von Braun.

In 1966, the college changed its name to Florida Institute of Technology to acknowledge its growing identity as a scientific and technological university, the only such independent institution in the Southeast.

From the beginning, Florida Tech has been committed to excellence in graduate education. A 1962 article in *The New York Times* described Brevard Engineering College as "the only space engineering college in the country ... its graduate course offers engineers the opportunity to obtain a master's degree and keep up with the advancement taking place daily at the Cape."

At the time of the article, all of the college's graduate students worked on America's race to space during the day and attended classes at night. Today, as the university has evolved, nearly 60% of on-campus graduate students attend and do research full time.

The university moved to its current Melbourne campus in 1961, and construction began immediately on administration and classroom buildings to augment existing buildings on the site. Before the decade's end, the university would break ground on its first million-dollar building, the Crawford Building.

During the 1990s the university added new facilities valued at nearly \$50 million with construction of the F.W. Olin engineering, life science and physical science buildings and the Charles and Ruth Clemente Center for Sports and Recreation. The next wave of modernization included \$75 million in new infrastructure, including the Emil Buehler Center for Aviation Training and Research, Ruth Funk Center, The Scott Center for Autism Treatment, L3Harris Center for Science and Engineering, Panther Dining Hall, Panther Aquatic Center, L3Harris Commons, Varsity Training Center, L3Harris Student Design Center and a parking structure.

Florida Tech campus facilities continue to evolve to meet 21st-century needs. In 2020, the Folliard Alumni Center opened on the site of the old Alumni House. The sleek new building is both aesthetically pleasing and energy-efficient, with eco-friendly features at the core of its design and goals. Opening in 2022, the 61,000-square-foot Gordon L. Nelson Health Sciences building will enhance the university's capacity for undergraduate and graduate education, scientific research and social engagement with state-of-the-art teaching laboratories in human anatomy, augmented and virtual reality teaching tools, and facilities for orthopedics, tissue studies and advanced computational simulations. Also opening in 2022 is the Mertens Marine Center, which will provide a premier, hands-on educational experience for students studying marine biology and water quality.

More than 65,000 degrees have been conferred on students at Florida Tech since 1958, when 154 students signed up for the first fall semester. As the institution advances and the alumni ranks multiply, the university remains dedicated to developing concerned scientists, aviators, engineers and business leaders who will change the world.

Florida's Flags

On stage are flags that have flown over Florida skies. They represent the Spanish monarchy (16th century), the French monarchy (16th century), the United Kingdom (18th century) and the current State of Florida. These and the other flags constitute Florida Tech's way of expressing and symbolizing 400 years of Florida's history from the era of the European voyages of discovery to the present including over 200 years since the birth of our nation.

ACADEMIC ORGANIZATION

The university is organized into four academic units: College of Aeronautics, Nathan M. Bisk College of Business, College of Engineering and Science and College of Psychology and Liberal Arts.

College of Aeronautics

The College of Aeronautics offers Bachelor of Science degrees in aeronautical science, aviation administration, aviation human factors & safety, aviation management and aviation meteorology, each with flight and nonflight options. The college also offers a Bachelor of Arts in aviation management; associate degrees in aeronautical science with flight, air traffic control, aviation management with and without flight, aviation meteorology with flight, and flight operations and dispatch; master's degrees in airport development and management, applied aviation safety, aviation human factors, aviation management, aviation safety, and human factors in aeronautics; a Ph.D. in aviation sciences; and a Doctor of Aviation, Av.D.

Nathan M. Bisk College of Business

The Nathan M. Bisk College of Business offers associate degrees in accounting, business administration, healthcare management, management, and marketing; bachelor's degrees in accounting, business administration, finance, and information systems; master's degrees in accounting and financial forensics, acquisition and contract management, business administration, commercial enterprise in space, healthcare management, human resources management, information technology, information technology–cybersecurity, information technology–database administration, logistics management, logistics management–humanitarian and disaster relief logistics, management, management–acquisition and contract management, management–human resources management, management–information systems, management–logistics management, management–transportation management, public administration, project management, project management–information systems, project management–operations research, quality management, supply chain management, systems management, systems management–information systems, systems management–operations research, and technology management; and a Doctor of Business Administration.

College of Engineering and Science

The College of Engineering and Science includes seven departments: aerospace, physics and space sciences; biomedical engineering and sciences; chemistry and chemical engineering; electrical engineering and computer science; mathematics and systems engineering; mechanical and civil engineering; and ocean engineering and marine sciences. Programs include aerospace engineering, applied mathematics, astrobiology, astronomy and astrophysics, biochemistry, biological sciences, biomathematics, biomedical engineering, biomedical science (premedical), biotechnology, cell and molecular biology, chemical engineering, chemistry, civil engineering, computer engineering, computer information systems, computer science, conservation technology, construction management, ecology, education, electrical engineering, engineering management, environmental and informal science education, environmental resource management, environmental science, flight test engineering, general biology, genomics and molecular genetics, human-centered design, information assurance and cybersecurity, interdisciplinary science, marine biology, marine conservation, mathematical sciences, mathematical sciences–applied mathematics, mechanical engineering, meteorology, ocean engineering, ocean engineering, oceanography, operations research, physics, physics–premedical physics, planetary science, software engineering, space sciences, space systems, space systems management, STEM education, sustainability studies and systems engineering.

College of Psychology and Liberal Arts

The College of Psychology and Liberal Arts includes the School of Arts and Communication, School of Behavior Analysis and School of Psychology, as well as the military science program (Army ROTC). The college offers an associate degree in applied psychology; bachelor's degrees in applied behavior analysis, applied psychology, forensic psychology, humanities, humanities–prelaw, multiplatform journalism, psychology, and strategic communication; master's degrees in applied behavior analysis, applied behavior analysis and organizational behavior, behavior analysis practice, global strategic communication, industrial/organizational psychology, organizational behavior management, and organizational leadership.

ACADEMIC REGALIA

Academic heraldry in the form of academic dress reaches as far back as the earliest days of the oldest universities. Formal directives concerning the correct and proper wearing of academic regalia date back to the early 14th century. In the United States, as a result of our English heritage, caps and gowns have been used since colonial times.

As heraldic devices such as shields, coats of arms, standards, etc., could identify a knight and his individual heritage, academic costume can describe the academic origin and accomplishments of the wearer. Easily recognizable are holders of bachelor's, master's and doctoral degrees. With the same glance, the trained eye may identify the university that conferred the degree as well as the individual's field of learning.

The shape and decorations of the gown are the keys to the highest degree earned by an individual. The undergraduate's gown has long pointed sleeves and is worn closed. The master's gown has an oblong sleeve, open at the wrist; the rear part of its oblong shape is square cut and the front part has an arc cut away. The master's gown may be worn open or closed. The doctoral gown has bell-shaped sleeves, may be worn open or closed, and may be most readily identified by its velvet facing down the front and by three velvet bars on each sleeve.

There is no general rule for the position of the tassel on a mortarboard. During commencement exercises at Florida Tech, undergraduate candidates for degrees are requested to wear the tassels on the right side before degrees are conferred and then to shift them to the left. The tassels worn by graduates at Florida Tech reflect the level of degree awarded, as follows:
Black.....Undergraduate degree level
Yellow..... Master's degree level
Gold..... Doctorate level

It is the hood, however, that is the most important and distinctive feature of American academic pageantry. It enables anyone attending an academic function to distinguish at a glance the wearer's academic heritage. The bachelor's hood, seldom seen in American academic circles, is three feet long, with a two-inch edging of velvet. The master's hood is three feet long, with a three-inch edging. The doctoral hood is four feet long, with a five-inch edging.

The color of the hood's velvet edging represents the field in which the wearer earned his degree. Although black may be used for any area, specific colors denoting the various field of learning are assigned. There are more than two dozen hood colors accepted at colleges and universities in the United States, some of which may be worn today by faculty and administrators who have graduated from other universities here or abroad. However, Florida Tech degree candidates wear one of the following colors:
Gold.....Science and Engineering
Drab..... Business
Light Blue..... Education
Royal Blue.....Psychology

The hoods of American colleges and universities are lined with silk in the official academic colors of the institution that conferred the degrees. Florida Tech graduates, for example, will wear hood linings that are crimson (red) with a gray chevron (stripe).

Undergraduates graduating with honor may wear cords designating the honor.

White..... cum laude
Silver..... magna cum laude
Gold..... summa cum laude

The academic regalia you see before you today can be traced directly to the beginnings of the oldest colleges and universities. In 1885, there occurred a widespread student movement in America to wear caps and gowns at commencement ceremonies. The graduating students seemed to feel a need for significant and dignified apparel for the occasion. By 1895, widespread adoption of a uniform code by 95 percent of colleges and universities in this country gave America its own distinct academic regalia.

However, at any academic gathering, costumes usually appear that cannot be fathomed by these guidelines. Some of these may be from foreign universities, others from those American institutions that have preferred to remain with the European tradition of allowing each school to determine its own costume. The net result is the academic costume you see before you today.

GRADUATE DEGREES—DOCTORAL

DOCTOR OF AVIATION

Jennifer Ann Torres

M.S. Accounting
Nova Southeastern University
B.S. Aviation Business Administration
Embry Riddle Aeronautical University
Dissertation: “*How Students Learn: Examining the Differences in Learning Strategies Between Flight and Nonflight Students*”
Major Professor: Michael Gallo, Ph.D.

DOCTOR OF PHILOSOPHY

Aerospace Engineering

Adwaith Ravichandran

M.S. Aerospace Engineering
Florida Institute of Technology
B.E. Aeronautical Engineering
Kumaraguru College of Technology, India
Dissertation: “*A GPU-based Monte Carlo Simulation of Eddy Current Power Loss and Heat Dissipation in Electrical Machines*”
Major Professor: Hector Gutierrez, Ph.D.

Jedediah Morse Storey

M.S. Aerospace Engineering
Florida Institute of Technology
B.S. Aerospace Engineering
Massachusetts Institute of Technology
Dissertation: “*Experiments and Simulations of Liquid Mass Gauging and Slosh Dynamics in Microgravity*”
Major Professor: Daniel Kirk, Ph.D.

Applied Mathematics

Maram Mohammad H. Alrumayh

M.S. Mathematics
Ohio University
B.S. Mathematics
Northern Borders University, Kingdom of Saudi Arabia
Dissertation: “*Two-Dimensional Boundary Value Problems for Quasi-Linear Hyperbolic Systems of Second Order*”
Major Professor: Taniel Kiguradze, Ph.D.

Avriel Rowena Mae Cartwright

B.S. Mathematics
Bachelor of Education
University of the Bahamas, Bahamas
Dissertation: “*Low Reynolds Number Locomotion Near Interfaces in Two-fluid Media*”
Major Professor: Jian Du, Ph.D.

Aviation Sciences

Michael Scott Harwin

Juris Doctorate
Rutgers, The State University of New Jersey
Master of Law – Tax Law
New York University
M.S. Aviation Human Factors
Florida Institute of Technology
M.S. Aeronautics
B.S. Aeronautical Science
B.S. Airway Science
Embry Riddle Aeronautical University
Dissertation: “*The Private Pilot Check Ride: Applying the Spacing Effect Theory to Predict Time to Proficiency for the Practical Test*”
Major Professor: Michael Gallo, Ph.D.

Behavior Analysis

Lauren Elizabeth Rivera

M.S. Applied Behavior Analysis
Florida Institute of Technology
B.A. Literature and Rhetoric
State University of New York at Binghamton
Dissertation: “*An Evaluation of Process- and Performer-Based Improvement to Increase Online Giving in Churches*”
Major Professor: Mark Harvey, Ph.D.

Sean Michael Will

M.S. Behavior Analysis
B.S. Applied Behavior Analysis
University of North Texas
Dissertation: “*Finding Furever Homes: Examination of a Training Program to Teach Shelter Dogs How to Ask for and Receive Affection from Humans*”
Major Professor: Mark Harvey, Ph.D.

Biological Sciences

Victor Rodriguez Ruano

B.S. Biological Sciences/Marine Biology
Florida Institute of Technology
Dissertation: “*Climate Change and the Shifting Geography of Coral Reef Development*”
Major Professor: Richard Aronson, Ph.D.

GRADUATE DEGREES—DOCTORAL

Chemical Engineering

Thomas Michael Quaid

B.S. Chemical Engineering
Florida Institute of Technology
Dissertation: *“Assessing the Thermodynamic Potential of Deep Eutectic Solvents in the Absorption of Greenhouse Gases through Computational Methods”*
Major Professor: Toufiq Reza, Ph.D.

Civil Engineering

Zhuoxuan Wei

M.S. Civil Engineering
Florida Institute of Technology
B.S. Engineering Management
Sichuan University, People’s Republic of China
Dissertation: *“Component Approach for a Combined Hurricane Wind and Rainwater Damage and Time Related Expenses Model in Mid/High-Rise Buildings”*
Major Professor: Jean-Paul Pinelli, Ph.D.

Electrical Engineering

Zaid Samir Yousif Matloub

M.S. Electrical Engineering
Florida Institute of Technology
B.S. Electronics and Communications
University of Baghdad, Republic of Iraq
Dissertation: *“Characterization of Human Mobility from Cellular Data”*
Major Professor: Ivica Kostanic, Ph.D.

Industrial/Organizational Psychology

Dan M. Nguyen

M.S. Industrial/Organizational Psychology
Florida Institute of Technology
B.A. Psychology
Texas A&M University
Dissertation: *“Charter for Smarter HATs: How Team Charters Dynamically Improve Trust and Emotions in Human-Agent Teams”*
Major Professor: Jessica Wildman, Ph.D.

Mechanical Engineering

Majed Mohammad Hotami

M.S. Mechanical Engineering
Wilkes University
B.S. Mechanical Engineering
Umm al-Qura University, Kingdom of Saudi Arabia
Dissertation: *“Investigation on Mechanical, Tribological and Corrosion Resistance Properties of Nano-Sized TiO₂/B₄C/Graphene Reinforced D AA 7075 Surface Composites Fabricated by Frictional Stir Processing”*
Major Professor: Ilya Mingareev, Ph.D.

Yasin Shokrollahi

M.S. Mechanical Engineering – Manufacturing and Production
Amirkabir University of Technology, Islamic Republic of Iran
B.S. Manufacturing and Production Technology
Engineering-Machine Tool
Shahid Bahonar University of Shiraz, Islamic Republic of Iran
Dissertation: *“Developing User-friendly Web-Based Tools for the Prediction of Material Properties of Composite Hydrogel: Bridging Machine Learning and Finite”*
Major Professor: Linxia Gu, Ph.D.

Darshan Pramodbhai Yadav

M.S. Mechanical Engineering
Florida Institute of Technology
Bachelor of Technology in Mechanical Engineering
Pandit Deendayal Petroleum University, India
Dissertation: *“Analyzing the Effects of Ultrafast Laser Processing on Mechanical Properties of 3D-Printed Materials”*
Major Professor: Ilya Mingareev, Ph.D.

GRADUATE DEGREES

College of Aeronautics

Dean John Deaton, Ph.D.

Office of Alumni Affairs

December 2023

Dear Florida Tech Graduate,

Congratulations on earning your degree! The 68,000+ alumni of the Florida Institute of Technology family and our board of directors are pleased to welcome you into the select group of individuals who have graduated from Florida Tech. Further, we welcome you into the Florida Tech Alumni Association.

You have only one requirement to participate in the many benefits and programs of the alumni association—keep the Office of Alumni Affairs informed of your current mail and email addresses, so we can keep in touch with you (and make sure you sign up on our new outreach platform, Florida Tech Connect at floridatechconnect.com)!

Upon graduation, you are automatically a member of the alumni association and have access to many benefits and services. Our online community provides instant access to our complete alumni directory, job opportunities, exclusive alumni events and more. The Florida Tech alumni page on Facebook provides you with an additional online resource for keeping in touch with other alumni and lets you know about upcoming events such as homecoming. You are cordially invited as a new alumnus to this yearly event, and it is our sincere wish that you revisit often.

We hope you will join us in our proud tradition of supporting the association and your alma mater. As graduates, we are strongly committed to continuing the development of Florida Tech as a world-class university. Our priorities include recruiting qualified students, addressing the issues that are important to encourage student retention, raising funds for scholarships and endowments, and improving the career network of graduates in order to help them meet their career objectives. In the recent past, the association successfully spearheaded the effort to build a new alumni house, the Folliard Alumni Center, which will forever serve as your base camp for revisiting our beautiful campus. In the future, there will be other outstanding efforts by the association to visibly grow the student experience at Florida Tech. We hope you will take advantage of these great benefits available to you and that you will support our efforts to promote your alma mater.

Again, on behalf of the Florida Tech Alumni Association, I say congratulations to you, the members of the Class of 2023. Best wishes for great success in all your future endeavors!

Go Panthers!

Sincerely,

Sherry Acanfora-Ruohomaki '93, '00, '05 M.S.
President, Florida Tech Alumni Association

Florida Institute of Technology
150 W. University Blvd.
Melbourne, FL 32901-6975

321-674-7190

alumni.fit.edu

This list of candidates for graduation was prepared before final grades were reported and inclusion herein does not constitute evidence of graduation. While every effort is made for clearance prior to the printing deadline, final action to ensure an accurate listing of the names of all persons qualified for degrees cannot always be taken before the program goes to print. Therefore, errors are possible, and the listing of a name in this program should not be constituted as an indication that the person will in fact receive a degree from Florida Tech at this commencement. Conversely, the absence of a student's name from this list does not necessarily mean that the person will not be awarded a degree.

This publication was produced by the Florida Tech Office of the Registrar and Office of Creative Services.

20230901

THE STAR-SPANGLED BANNER

*Oh, say can you see, by the dawn's early light
What so proudly we hailed at the twilight's last gleaming
Whose broad stripes and bright stars, through the perilous fight
O'er the ramparts we watched, were so gallantly streaming
And the rockets' red glare, the bombs bursting in air
Gave proof through the night that our flag was still there
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave*

Francis Scott Key (1779–1843)

FLORIDA TECH ALL HAIL! (ALMA MATER)

*Nestled deep within the garden
'Neath the skies of blue
Stands our noble alma mater
Wonderful to view*

CHORUS

*Lift the chorus, lift it skyward
Sound it to the shore
Florida Tech, our alma mater
To the clouds we soar*

*We your loyal sons and daughters
Homelands near and far
Clasp our hands in love of learning
Reaching for the stars*

CHORUS

*Sign of hope and inspiration
Lead to never fail
Ever is our alma mater
Florida Tech all hail!*

CHORUS

*Lyrics by Mary and Ken Droscher, 2001
Music by H.S. Thompson, "Annie Lisle," 1860*
