The purpose of this document is to provide you with important information regarding the F I T AVIATION LLC 401K SALARY REDUCTION PLAN AND TRUST and the plan's designated investment alternatives under the *Lincoln Alliance*[®] program, including fee and expense information, to help you compare investment options in accordance with Department of Labor (DOL) Regulation section 2550.404a-5 ("404(a) participant fee disclosure").

Information presented throughout this entire document is specific to the plan's designated investment alternatives only under the *Lincoln Alliance* program. Please contact your retirement plan administrator for more information.

Every effort has been made to ensure that this disclosure is as thorough and accurate as possible to reflect the legal documents, laws, and regulations that govern the operation of the plan. General plan information

To direct your designated investment alternatives for the plan:

For initial enrollment, you may enroll by following the enrollment process established for your plan or by completing the materials and returning them as indicated on the documents provided during the enrollment process.

Existing participants may update elections by:

- Visiting LincolnFinancial.com, or
- Calling the Lincoln Customer Contact Center at 800-234-3500

You may change your elections at any time; transfers are effective the same business day provided the markets are open and instructions are received before 4:00 p.m. Eastern Time.

The *Lincoln Alliance* program may restrict the number of transfers you may make among designated investment alternatives within the product in a given time period. An investment option may apply a redemption fee or restrict certain transfers. However, transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Voting and tender rights associated with mutual fund shares offered under the plan are exercised by the plan sponsor, if applicable.

The designated investment alternatives available in the *Lincoln Alliance* program are those listed in the comparative charts. Please contact your retirement plan administrator for information regarding designated investment alternatives offered outside of the *Lincoln Alliance* program, if any (e.g., employer securities).

Plan fees and expenses

This section provides an explanation of fees and expenses for general plan administrative services, if any, that may be charged to or deducted from all individual accounts and are not reflected in the total annual operating expenses of any designated investment alternative. For example, the plan may incur general administrative expenses each year to cover services related to the operation of the plan (e.g., legal, accounting, recordkeeping, trustee fees, and Registered Investment Advisor fees). Where applicable, the plan may charge a portion of these expenses to participant accounts if the expenses are not paid by the plan sponsor or from revenue sharing payments the plan receives from plan investment options. These expenses will appear on your quarterly retirement statement, if applicable.

Additionally, an explanation of any fees and expenses that may be charged to or deducted from the individual account of a specific participant based on the actions taken by that person are described below. The dollar amount of fees and expenses that are actually charged to a participant's account during the preceding quarter will be reflected on the participant's quarterly retirement statement.

Frequent trading policy: Transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Total annual operating expense: Expenses that reduce the rate of return of the investment option.

Net Operating Expense: Total annual operating expense net of any applicable fund company waivers/reimbursements.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. For an example of the long-term effects of fees and expenses on your retirement account, visit the Department of Labor website at <https://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to consider whether an investment in a particular option, along with your other investments, may help you achieve your financial goals.
